

## **QUALITY POLICY**

We import, distribute and sale plastic raw materials, compounds, colors and additives for plastic converters.

Fulfilling customers needs and expectations with high quality is the key for success at hard competition situation. We act as a partner between plastic converters and producers of material suppliers.

For our customers this means accurate deliveries, reliability, technical know how and first class customer service. Customer, material supplier and other stakeholder are our partners.

Quality belongs for all our employee's way of acting, and is part of company culture – we adhere to quality of operation and its continuous improvement.
